

ProKure® D

Slow-Release Gas Deodorizer

50g (1.76oz)

ProKure D is the solution for improving air quality and for **ongoing control of odors for up to 30-days.**

FEATURES

Ongoing Protection

- Treats 4,000 ft.³ of indoor space.
- Maintains indoor air quality for up to 30-days.

Easy Activation

- "Pouch" will activate from the moisture in the air.
- Place clamshell with "pouch" near problem areas or evenly throughout your space.

Safe in Occupied Spaces

- When used as directed, ProKure D is safe for use in occupied spaces.
- Low levels of ClO₂ emitted.

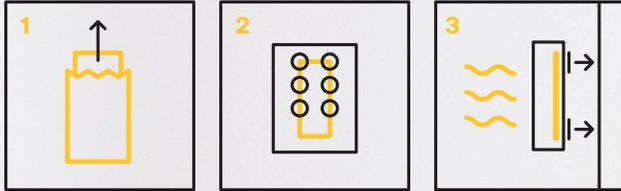

Not an EPA-registered product and not labeled for sale as a pesticide under 40 CFR.

Read the entire label and use strictly in accordance with precautionary statements and use.

ProKure D 50g Packet + Clamshell: 205-DE050R
 ProKure D 50g Case (12 Packets + Clamshells): 205-DE050R12

HOW TO ACTIVATE

Dispersion Type: Clamshell

Step 1: Tear open the foil package and remove the white inner pouch. **DO NOT OPEN WHITE INNER POUCH.** **Step 2:** Insert the white inner pouch into the clamshell. **Step 3:** Snap the clamshell securely closed and place on a stable, level surface. You may also use the tape strips on the back of the clamshell to adhere to a wall.

Not an EPA-registered product and not labeled for sale as a pesticide under 40 CFR.

Read the entire label and use strictly in accordance with precautionary statements and use.
